About

I am a seasoned Fullstack Developer with over 2 years of experience, initially in UI/UX design during a 4-month internship. After completing my SMK, I worked as a Frontend Developer at a Yogyakarta software house. Currently pursuing further education, I engage in freelance projects, showcasing my proficiency as a Fullstack Developer. I specialize in React.js and have a proven track record in developing responsive web applications. My diverse skills, ranging from UI/UX to Fullstack development, make me a dynamic and adaptable professional ready to contribute to challenging projects.

Education

2018 - 2021   Network Engginering, SMK N 2 Depok Sleman/ STM Pembangunan Yogyakarta

2022-Present   Information System, Universitas Teknologi Digital Indonesia.

Experience

PT Solusi Dua Empat Tujuh

Ui Designer | Sept 2020-Dec 2020

Redesigned the user interface of Solusi247's company profiles website, focusing on improving website flow and incorporating additional components. Created prototypes for the redesigned web interface and effectively communicated design concepts with supervisors. Assumed control over the design implementation process, collaborating closely with the Frontend development team to ensure the seamless integration of the new design elements.

Techorigin - Software House

Frontend Developer | Sept 2020 - Sept 2021

I am a member of the Engineer Team, along with three other people. I am in charge of creating an interface design that is both user-friendly and consistent with the company's brand. I also assist the team with frontend development, particularly in the creation of design systems and UI components with React.

PT Istana Mesin Laundry

Fullstack Developer | Oct 2020 - Present

I contributed significantly to PT Istana Mesin Laundry by developing a cashier application and integrating it with IoT-enabled laundry machines. This collaborative software streamlined operations, enhancing the overall efficiency of the laundry management ecosystem.

Volunteer Experience

Staff Web Youth Ranger Indonesia

Web Developer | March 2023- present

I volunteered with Youth Ranger Indonesia, where I played a key role in website development and content management. My contributions involved enhancing the website's functionality and ensuring effective content management for Youth Ranger Indonesia's online platform.
